

Giada Gambadoro

Giada Gambadoro is Country Manager at FICO, leading growth and client engagement across the Italian financial sector. With over a decade of experience driving digital transformation for leading banks, Giada brings a deep understanding of advanced analytics, decision management, and financial service innovation.

Before joining FICO, Giada held senior roles at Microsoft, where they developed strategic banking relationships for top-tier institutions helping them to leverage on AI successfully, and at PwC, where they spearheaded fintech, RegTech, and digital transformation initiatives. Earlier in their career, Giada worked with NTT Data in London and PwC Advisory on large-scale technology and regulatory programs for European banks.

Drawing on this unique mix of consulting, technology, and financial services expertise, Giada helps banks leverage data and AI-driven decisioning to enhance customer experience, manage risk, and drive sustainable growth.
